MEDICAL OFFICER'S REPORT

Council Offices,
Thornton Cleveleys.

TO THE CHAIRMAN AND MEMBERS OF THE
THORNTON CLEVELEYS URBAN DISTRICT COUNCIL.

Mr. Chairman, Ladies and Gentlemen,

I have the honour to present to you the Annual Report of the Medical Officer of Health for the year 1970.

This year saw the retirement in March of Mr. A.E. Barnes, from his position as Chief Public Health Inspector to the Council, after thirty years of devoted service. Mr. K.E. Emery, formerly Deputy Chief Public Health Inspector with the Council, was appointed to succeed Mr. Barnes.

The vital statistics for the area remained generally satisfactory during the year. The incidence of notifiable infectious diseases remained generally low with the exception of Measles. In the case of this disease there were 119 notifications during the year. An effective measles vaccine is now available for infants and young children and if more parents were to have their children vaccinated against this disease, it would result in a considerable reduction in the number of cases that occur.

My thanks are again due to my colleagues in the Health Department for their loyalty and assistance.

To you, Mr. Chairman and members of the Health Committee, my appreciation of the encouragement and support afforded to me.

I am,

Ladies and Gentlemen,

Yours faithfully,

J.E. MORRIS.

Medical Officer of Health.

ANNUAL REPORT OF THE CHIEF PUBLIC HEALTH INSPECTOR.

TO THE CHAIRMAN AND MEMBERS OF THE
THORNTON CLEVELLYS URBAN DISTRICT COUNCIL.

Mr.Chairman, Ladies and Gentlemen,

I have pleasure in submitting my first Annual Report on the Public Health and Cleansing Department, for the year 1970.

In doing so, I would first like to pay tribute to my predecessor, Mr.A.E.Barnes, who was the Chief Public Health Inspector to this authority for 30 years and who has been responsible for achieving a high standard in all public health matters concerning the welfare of the district.

During the year, many requests were received under the Housing Act, 1969, for Qualification Certificates which resulted in considerable work by the department. Most of the requests were made by owners of properties which already had standard amenities.

Surveys were being made to hotels, guest houses and some larger premises let as holiday flats, with regard to means of escape in case of fire and where necessary, work has been requested. Attention has also been given to all premises in which food is handled and the operation of the Food Hygiene Regulations must always be an important part of the department's work.

During the year an Incentive Bonus Scheme, based on Work Study principles, was introduced for the refuse collectors and this has allowed a decrease in the labour establishment. A further 2,100 premises were converted to the refuse sack system and at the end of the year 6,300 premises were on the scheme. The five refuse disposal points provided under the Civic Amenities Act,1967, have occasioned the department some concern due to their being mis-used and consideration will have to be given for some improvements to be made to these sites.

In conclusion, I wish to thank the Chairman and members of the Health Committee and also Dr.Morris, the Medical Officer of Health, for their help and co-operation during the year. On the 18th May,1970, Mr.D.Leslie was appointed Deputy Chief Public Health Inspector and I would also like to thank him and all the members of the staff for their co-operation in this my first year as Chief Public Health Inspector.

I am, Mr.Chairman, Ladies & Gentlemen,

Yours faithfully,

K. E. EMERY.

Chief Public Health Inspector & Cleansing Officer.

The vehicles used in the department are as under:-

S.D.4.	"TW" type diesel fore and aft tipper.....	Licensed Sept.1962.
S.D.5.	"TZ" type diesel Pakamatic.....	Licensed March,1967.
S.D.6.	"TBZ" type diesel Pakamatic.....	Licensed Jan.1968.
GWL.1.	Karrier/Ramillies diesel bulk loader.....	Licensed June,1970.
BLMC.	BLMC. diesel vehicle.....	Licensed Sept.1970.

The cleansing work is carried out by two 35 cu.yd. Pakamatic vehicles and one new diesel bulk loader which came into operation on the 1st June,1970. The TW type diesel fore and aft tipper which can be used for emptying bulk containers came in very useful as a spare vehicle. An old TW.type diesel fore and aft tipper (S.D.3) used for the collection of wastepaper, was scrapped during the year and was replaced by a new BLMC diesel vehicle.

During the year, further premises were converted to the refuse sack system and at the end of the year 6,300 premises were on the scheme. Further extensions will take place during 1971, when the whole of the district will then be on this system.

Under the Civic Amenities Act,1967, 5 refuse disposal points were in operation throughout the district. A refuse disposal point consists of one or more bulk containers surrounded by fencing and allowing adequate space for the depositing of bulky articles which would not go into the bulk containers. It has been found necessary for these compounds to be cleared during the weekend period throughout the summer months. In addition, bulk containers are provided by the owners of many of the larger hotel and shop premises.

DISPOSAL OF REFUSE.

Refuse is disposed of by controlled tipping methods and from June, 1967, tipping facilities were shared with a neighbouring authority, along with the costs involved. This is a very helpful arrangement and will provide us with tipping space for many years to come.

COLLECTION AND DISPOSAL OF SALVAGE.

The Council continued with the collection of wastepaper salvage during the year. From the 5th January, 1970, the price was increased by £1.5.0. per ton. Throughout the year a bonus scheme, based on Work Study principles, was in operation for the collection and baling of wastepaper.

The above figures show the present minimum labour requirements but it is necessary from time to time to increase this labour force for holiday periods and sickness.

An increased Bonus Scheme based on West Study principles, came into operation in February, 1970. This allowed for some decrease in the labour establishment.

CIVIL SUPPLY ACT, 1967. REMOVAL & DISPOSAL OF VEHICLE REGULATIONS, 1968

During the year 6 cars and vans were dealt with under the provisions of the above Act and were removed from the district. 18 vehicles were removed voluntarily by owners.

It was not found necessary to take any proceedings, but Notices had to be served and in some cases the alleged owners of the vehicles could not be traced. Since the Act came into operation, 184 vehicles have been removed from the district.

PUBLIC CONVENIENCES.

The department is responsible for the cleansing and maintenance of all public conveniences. The following is a list of such conveniences as at the 31st December, 1970. They are cleansed by one man full time and two lady cleaners full time.

Kenyon Park, Thornton.	3 WCs. 4 wash-hand basins with hot and cold water.	2 WCs. and urinal. 2 wash-hand basins with hot and cold water.

* Not in use during winter months.

Work was commenced during the year to improve the conveniences at the Arena, Jubilee Gardens and Bathing Station.

In common with other authorities, we suffered a great deal of damage and this vandalism causes extra work and also increases greatly the cost of maintenance.

PREVENTION OF DAMAGE BY PESTS ACT, 1949.

It was not found necessary to serve any Notices under the provisions of the above Act and we secured the co-operation of the public at all times. We experienced no difficulty in regard to the operation of the Act.

The provisions of the above Act are in operation and three certificates are in existence in respect of premises in the area.

SCHOOLS

The general condition of the schools in the area is satisfactory, all being supplied with Fylde water and in each case modern water closets are provided. The eleven schools are under the control of the Lancashire Education Committee.

SEA FISHERIES

There are no shell fish beds in our area. During the year three samples of shell fish were obtained and the results were satisfactory.

MORTUARY

A modern mortuary possessing equipment in accordance with present-day practice, has been in use throughout the year. It was used on 162 occasions and 145 post-mortems were conducted by the Police Surgeon.

By arrangement, the Fleetwood Borough Council have the joint use of the mortuary and the net cost is shared between their authority and ours. Two Urban District Councils and a Rural District Council have the use of the mortuary at agreed charges and it is also used on the direction of the Local Coroner. It was used as follows:-

ATMOSPHERIC POLLUTION.

During the year, recordings of the volumetric concentration of smoke and sulphur dioxide in the atmosphere, were obtained at the following sites in the district, in accordance with the recommendations of the Department of Scientific and Industrial Research.

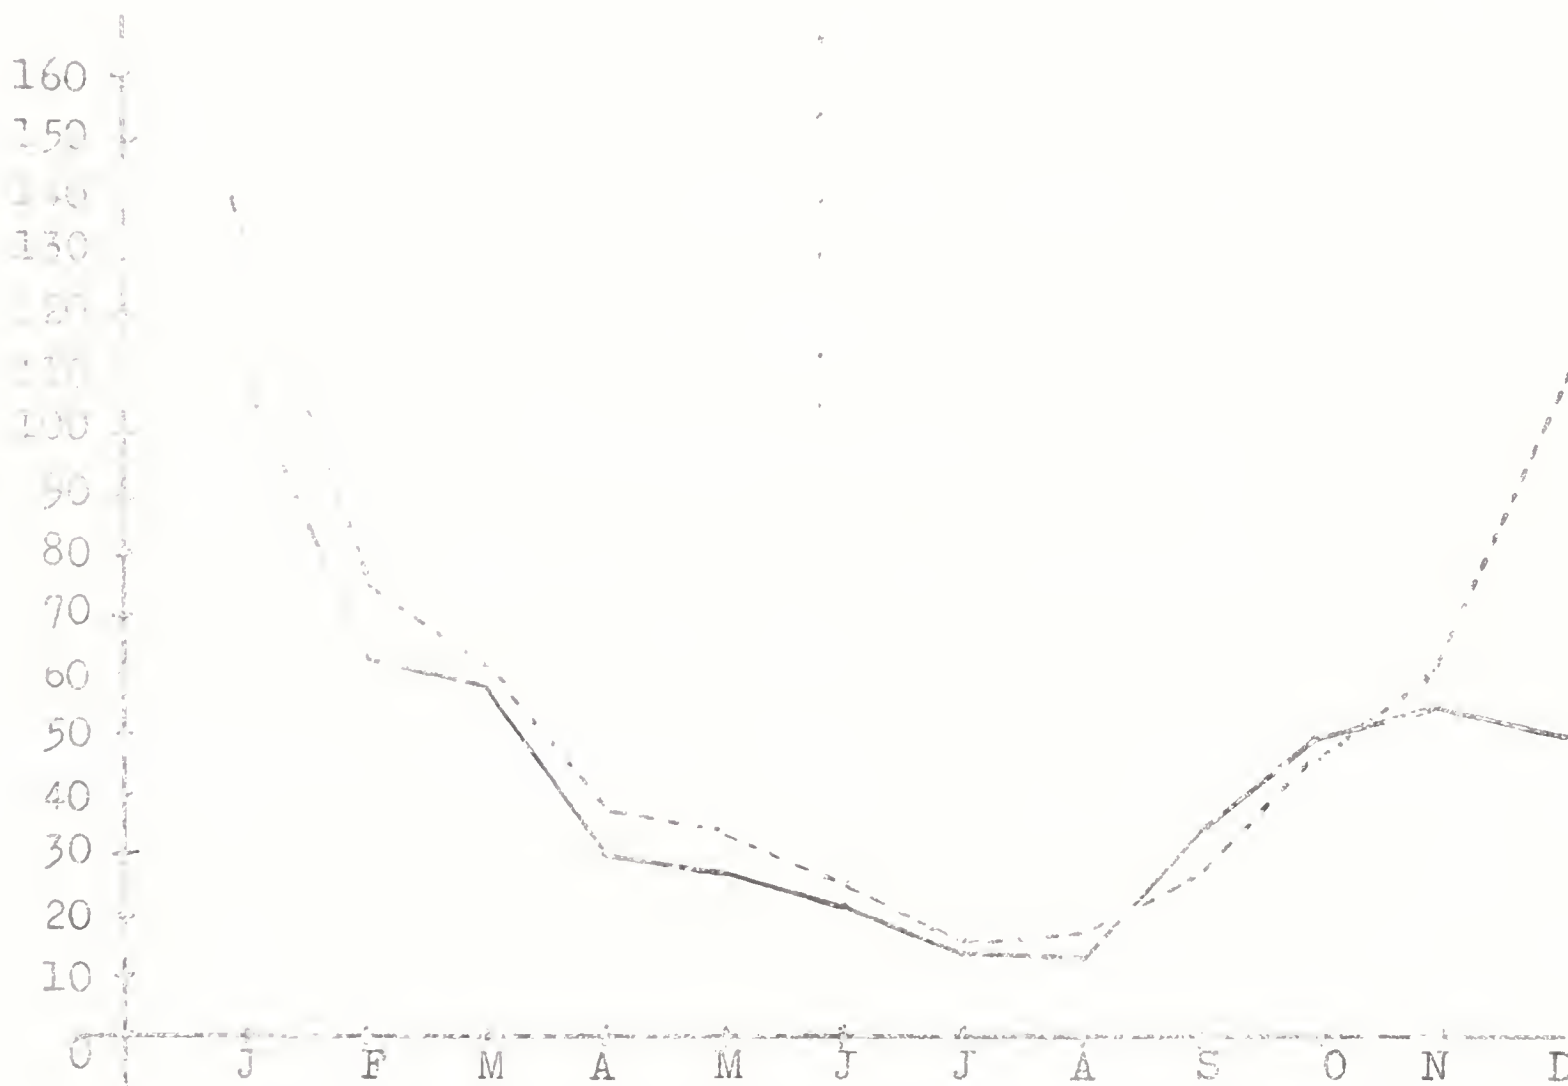

1. North Western Gas Showrooms, Victoria Square, Cleveleys. (Cleveleys 2).

This site is situated in a commercial area of shops, hotels and boarding-houses, together with many small scattered light industries.

2. North Western Electricity Board Sub-Station, Butts Road, Thornton. (Thornton Cleveleys 2).

The area is dominated by a large Chemical Works to the North and East, whilst to the South is light industry and open fields to the West.

Once again the results show a decrease in the amount of SO_2 and smoke in the atmosphere. This is possibly due to householders changing from open coal fires to other smokeless forms of heating.

<u>Sample</u>	<u>Result of Analysis.</u>	<u>Action taken.</u>
Stewed Steak with Gravy.	(1) Contained part of a cooked domestic house fly (<i>Musca domestica</i>) weighing 13 milligrams. (2) Illustration of the stewed fresh meat on label would be held to be misleading when compared with the product inside can which resembled canned beef.	Importers cautioned. "
Informal Milk.	Freezing point indicated 7.6% extraneous water.	Dairy cautioned.
Sleep Tablets.	Central nervous system effects of salicylamide insufficient to justify the name "Sleep Tablets". (Same label as the re-named tablets submitted as "Rest Aid").	No action advised.
Ham Roll in Mayonnaise.	The word "Sweetener" which appears in the list of ingredients to indicate the presence of approx. 0.1% of saccharin is not sufficiently specific and should be replaced with the word "Saccharin".	Importers communicated with.

<u>Sample.</u>	<u>Result of Analysis.</u>	<u>Action taken.</u>
Prawns.	Sample putrifying (total volatile basis equivalent to 360 micrograms of nitrogen per 100 grammes of fish - should not exceed about 30.	Vendor interviewed.
Bread (part loaf).	Contained a piece of carbonated bakery char (probably originally a charred bubble of dough on a baking tray) weighing 0.087 gramme and additionally, trapped in the crumb, there was a roll of partly risen dough weighing 0.058 gramme. Evidence of further rolls of similar dough having been baked with the bottom crust of the loaf could be seen as baked in enclosures and patterns in the base crust. The bread was otherwise quite clean and wholesome.	Bakery notified and complainant informed.
Canned Soup.	The foreign body was a cooked slug (<i>Milax gagates</i>) of length 32 millimetres & weight 0.93 gramme.	Manufacturer cautioned and complainant informed.
Christmas Sweets.	No name of the food. From Jan. 1973 packets will need to bear an "appropriate designation", i.e. "Candy".	Packer and vendor informed.
